We intend to supplement payments bank business with lending to known customers through enhancement of license. Our opportunity to grow by transiting to SFB is significant on the back of optimal leveraging of our widespread network to cater the unmet credit demand of our merchants and customers. Fino’s core business activity will continue to be that of a banking service provider to the existing target segment with credit as an additional service offering.”

Ketan Merchant, Chief Financial Officer said, “We are delighted to announce highest ever quarterly revenue in the bank’s history as we continue to aim growing at 20 per cent YoY, focusing on customer ownership business and high margin products. Our SFB will be a Payments Bank++ model, different from existing players wherein the fee based income will constitute 75% - 80% to the revenue in first few years of operation.”
